

MEDICAL CLEARANCE FOR DENTAL TREATMENT

Date:

Dear Doctor,

Our Mutual Patient _____ DOB:

needs dental treatment which includes Extractions – single / Multiple and deep scaling and root planning. I understand that patient has some medical conditions which need medical clearance to proceed with treatment.

Is the patient on Blood thinners like Aspirin /Plavix / Coumadin / Heparin or any other medication that affects the bleeding and clotting time?
Is it ok to stop these blood thinners for 3-5 days prior to the dental surgery?

Is the patient on any medications for Osteoporosis -ORAL OR IV BISPHOSPHONATES?
Is the patient medically cleared to proceed with dental extractions?

Does the patient have any knee / hip / joint replacements / metal pins and screws or heart prosthetic valves / pacemaker /defibrillator which need antibiotic premedication prior to dental treatment?

Does the patient have any other medical concerns or contraindications to proceed with Dental treatment?

Please fax us your response at FAX # 813- 870-2970 with
Medical Doctor's Signature on Doctor's Letterhead /
Prescription PAD.

Thank you,
Dr. Anala Panchumarti / Dr.Nagabandi
